APPROVAL OF STATE ENGINEER					
OF STATE ENGINEER					
follo	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:				
	This permit is issued subject to the provisions of NRS 534.025 and 534.050 (2)c and based on the particular hydrologic conditions in the area of the place of use. The water to be diverted under this permit is a result of the rise of groundwater caused by secondary recharge and therefore does not provide or guarantee the long term availability for continuous use of this water from this source.  This well shall be equipped with a two (2) inch opening for measuring depth to water. A dedicated monitoring well can be used in lieu of this two (2) inch opening. The State Engineer shall approve the placement of any monitoring wells.  A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed (CONTINUED ON PAGE 2)				
The	amount of water to be appropriated shall be limited to the ar	nount which can be ap	oplied to beneficial use, and not to		
exceed 0.65 cubic feet per second , but not to exceed 246.0					
	acre-feet annually.	***************************************			
Wor	k must be prosecuted with reasonable diligence and be comp	oleted on or before	June 17, 1998		
Proc	of of completion of work shall be filed before		July 17, 1998		
App	lication of water to beneficial use shall be filed on or before.		June 17, 2001		
Proc	of of the application of water to beneficial use shall be filed of	on or before	July 17, 2001		
Мар	in support of proof of beneficial use shall be filed on or bei	ore	N/A

## (PERMIT TERMS CONTINUED)

to beneficial use. The totalizing meters and any monitoring wells must be installed before any use of water begins, or before the Proof of Completion of Work is filed.

The place of use of this permit is limited to the area described within the place of use which is called the Bellagio Project.

The depth of the well under this permit shall not in any case exceed sixty feet in depth nor shall the well penetrate any confining layer below this shallow aquifer.

A monthly report shall be submitted to the State Engineer within 10 days from the end of each month which shall include the amount of water pumped from each well, the use of the water and the depth to water in this well or any monitoring well.

Water quality samples shall be taken from each well on a quarterly basis, analyzed for total dissolved solids (TDS), pH and sulfates ( $SO_4$ ), and reported to this office along with the appropriate monthly report.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permits 61509, 61510, 61511, 61512, 61513, 61514, 61515, 61516, 61517, 61518, 61519, 61520, 61521, 61522, 61523, 61524, 61525, 61526, 61527, 61528, 61529, 61530, 61531, 61532, 61533, 61534, 61535, 61536, 61537, 61538 and 61539 shall not exceed 246.0 acre-feet annually.

The State retains the right to regulate the use of the water herein granted at any and all times.
